

MEMORANDUM FOR: Director of Personnel

SUBJECT : Voluntary Retirement Under the Agency System
in FY 1969 of Certain Employees with Less Than 60
Months Service Abroad

All possible candidates for retirement under the Agency system in FY 1969 have not been interviewed, for example a number of Security officers and a few officers in other Career Services in field stations. To date indications of interest are as follows:

1. Support Career Service -- two out of six possible candidates will submit applications.
2. Finance -- none of 16 possible candidates wishes to apply. Two other Finance officers who are away at this time have not been heard from.
3. Logistics -- one officer out of 18 potential candidates will apply. Two other Logistics officers who are assigned in the field will be canvassed as soon as possible.
4. Training -- none of the six or seven possible candidates wishes to apply.
5. Security -- as noted above a number of officers in the field have not yet been interviewed; currently one officer out of 15-20 possible candidates wishes to apply.
6. Personnel -- two officers have not given a positive response but to date one of the eight potential candidates wishes to apply.
7. Communications -- one of the four or five potential candidates wishes to apply.
8. Medical -- the Office of Medical Services has no potential candidate who wishes to apply.

In summary, five Support officers wish to apply for early retirement under the Agency system if their domestic service can be counted as qualifying service. We anticipate that one or more officers who are thinking it over or who have not been interviewed may also wish to apply.
